BOOST' RICHMOND

Wingo, Eliett and Crump Company Issue Instructions to All Their Traveling Men.

BANQUET HELD

Addresses Made by Heads of Each Department-List of Those Who Attended.

The annual salesman's convention and banquet of the Wingo, Ellett & at Murphy's Hotel Tuesday evening was a most interesting affair. This with the greatest enthusiasm by the large traveling force of the firm, which is one of the oldest and most progressive houses in the Souh.

Many topics were discussed by the management and salesmen, and much was accomplished in effecting a thor-ough understanding between the house and their salesmen for the coming fall campaign.

Addresses were made by the hear

of each department upon subjects of special interest to their representa-tives, and were heartly enjoyed by those present.

To "Boost" Richmond.

One of the most important instruc One of the most important instructions given the travelers was to 'boost'
Richmond. The Richmond salesmen
have not been as diligent as they
should have been in this respect, and
the representatives of the Wingo, Eilett & Crump Shoe Company were directed to use every influence in this
accomplishment by telling of the advantages of Richmond, not only as a
shoe market, but as a centre of great
importance in dry goods, notions, clothing, hats, groceries, hardware, etc.
The banquet was a very elaborate
one, covers being laid for forty people,
The following gentlemen were present: Colonel C. E. Wingo, Messrs, J. D.

CHRISTIAN SCIENCE

Though the market is yet bearish and erratic, the consensus of opinion among the Richmond operators is that the bottom in the downward movement has been reached. They argue that the railway securities have suffered chiefly in this siump, and that there is not now, if there ever has been, any good reason for their further decline in value. "For instance," said a well-known stock dealer yesterday, "Union Pacific is selling to-day below what it was when the 10 per cent. dividend rate was announced seven months ago, and its net earnings, together with those of its principal subsidiary, have increased at a rate of at least 20 per cent. over a year ago, and its business it still on the upward trend. Why should this stock be worth less than it was six months ago? It is non-sense, or rather it is a manipulation, pure and simple, and this thing can't keep up always." This commentator mentioned Louisville and Nashville, Coast Line, Southern, and some other stocks, as litustrating the point he made.

The board of directors of the South-orn Railway, in session in New York yesterday, declared the usual five per-cent dividend on the capital stock. It had been predicted that because of re-duced net earnings this dividend might be curtailed to some extent, or might be passed altogether. The fact that the usual dividend was declared caused a sharp advance in the stock. Mr. H. C. Lydiard, traveling agent

A sharp advance was declared caused a sharp advance in the stock.

Mr. H. C. Lydiard, traveling agent of the Chicago and Northwestern Railway, spent yesterday in this city in the interest of his road. Mr. Lydiard's headquarters are in Philadelphia.

Another Westerner, with headquarters in Philadelphia, gave Richmond a call yesterday, and may be here a day or two longer. He was Mr. B. M. Decker, traveling freight agent of the Northern Pacific Railway.

It is said that the Pullman Palace Car Company is soon to open a district office in Norfolk, to be in charge of a superintendent. This is to meet the demands of the Jamestown Exposition crowds. Heretofore the only district superintendent's office in these parts has been located in Richmond.

Mr. C. B. Ryan, general passenger agent of the Sancer.

Mr. C. H. Ryan, general passenger agent of the Seaboard Air Line, spent yesterday in the city visiting the offices of the road in Richmond. Mr. Ryan says all the roads centering in Norfolk and on Tidewater are getting in good shape to handle the exposition traffic.

Mr. Griffin, traveling passenger sgent of the Canadian Pacific Railway, with headquarters in New York, was a visitor at the Richmond railway offices yesterday.

The auditor of the Southern Railway reports a balance for six months past, after paying all charges, of \$2,164,959. This is something of a decrease as compared with the six months previous.

The city of Memphis is soon to have a great union depot, and no city in the country needs one more. It is to cost about \$3,000,000. Another \$2,000,000 is to be expended for terminals. All the lines entering Memphis are interested in the new terminal.

A paper published in the interest of the railways of this country says: "Some months ago we directed the attention of our readers to a novel tax on railroad tickets in Germany, which, we further stated, was the only counon railroad tickets in Germany, which, we further stated, was the only country to raise revenue by such a method. Now, the Fatherland-is again to the fore with an extra charge for baggage. Heretofore, passengers were permitted to carry fifty-five pounds of baggage free; now they must pay for it. In America a traveler is allowed 159 pounds of baggage free; now they must pay for it. In America a traveler is allowed 159 pounds of baggage free, Doubtless, German railroads will derive some profit through the operation of this law, which has only been enacted after a deliberation and discussion of two years. We must confess we find no serious fault with this movement. There's no legic in making nine passengers without baggage pay for the baggage car that is put on to accommodate the tenth. In view of the threatened reductions in railroad fares in this country it may follow that our own railroads will charge additionally for baggage. That the precedent will escape their notice is not probable, and that its lesson may be turned to good account is not an unreasonable expectation. By the law of the universe, each thing creates its kind: Hostility to railroads, leading to reductions in income, may very naturally lead to a curtailment of public privilege.

Grant vetal being violent and in a measure conto shore, and put in no oars at all. The sales in New York amounted to nearly two million shares. Liquidation seemed to be still in progress, and in the steel stocks it was greater and more pronounced than at any time yet. The result was that Steel went off two and a half points, the preferred selling at 99 1-2 and common at 38, the lowest prices recorded since last August. This, of course, made Richmond holders "squirm," but so far as known none of them were forced to unload.

Stocks generally sold off, but there were exceptions, notably Northern Pacific and Reading. The latter took a riso of six points during the day, and then lost four points, closing with a net gain of two points. Southern Railway preferred opened at 70, and after selling as high as 76, sagged; but closed firm at 72 1-2.

The regular dividend of 5 per cent, was declared by the board of directors, and this, of course, strengthened the stock, which has recently suffered because of a general belief that on acount of recent decreased net earnings this dividend would be cut down or passed.
